

Steve Farber

Best-Selling Author

AV Requirements

General Information

- Steve Farber's presentation consists of a spoken message, a set of digital slides, and three video clips with audio from computer.
- The videos and slides he uses are in PowerPoint installed on the hard drive of his laptop. The videos and slides will be run directly from his laptop. If you would like to run the slides from a local machine, please email - team@stevefarber.com for the PPT file and assets prior to the event.

Important Cues

- Steve will bring a hand held presenter and cue all slides himself.

Audio Visual Equipment Requirements

- LCD projector with a lumens rating of 3000 or above. Please work with your A/V technician to select a projector with the correct lumens rating for your venue and screen size.
- Lavalier cordless microphone for Steve.
- Additional microphone for person introducing Steve.
- VGA cable - to connect projector to computer. Steve will bring adapters for computer.
- Audio cable (3.5mm stereo cable) of sufficient length to connect the laptop to the sound board.

Terms of Use

- Steve's appearance may not be recorded (including by television camera), broadcast or transmitted by any means for any purpose, without a separate written agreement between the client and the speaker.
